

DP-602: Implement a data warehouse with Microsoft Fabric

Exercise 4 : Monitor a data warehouse in Microsoft Fabric

- Create a workspace
- Create a sample data warehouse
- Explore dynamic management views
- Explore query insights

DP-602: Implement a data warehouse with Microsoft Fabric

➤ Create a workspace

Create a workspace

Name *

Monitor_dw

✔ This name is available

Description

Describe this workspace

Domain ⓘ

d(dagstudentsgreatlearning (Owner) ×

Workspace type ⓘ

What a user can do in a workspace depends on the individual user license(s) assigned to that user and the workspace type. [Learn more](#)

Power BI only workspace types

Power BI workspaces only support the use of Power BI capabilities.
